

Levelling Shims - Heavy Duty

Description

Heavy duty plain levelling shims are used for alignment and levelling of heavy section steel plate and pre-cast concrete sections.

Manufactured from high strength, impact modified, rigid plastic they are able to withstand high loads without distortion or breakage. The shims are also fully resistant to corrosion.

Available as plain flat section or horseshoe type for fitting around connecting bolts.

Sizing & Packing

Product Code	Thickness (mm)	Dims (mm)	Packing (nr)
LSP2	2	70 x 70	125
LSP3	3	70 x 70	125
LSP5	5	70 x 70	125
LSP7	7	70 x 70	125
LSP9	9	70 x 70	125
LSP10	10	70 x 70	125
LSP15	15	70 x 70	50
LSP20	20	70 x 70	50

Material: POLYPROPYLENE – compound co-polymer Part Strength Tested to a loading of 1.0 kN.

Properties	Value/unit
MFI (2.16 kg @ 230 C)	4 - 7
Density	0.9
Impact	5.23 ft-lb/in ²
Colour	Black

Note: In the absence of a specific harmonised European standard (hEN) or European Technical Approval (ETA), a CE Mark is not required.
