

Soltex Resin Bonded Cork Board

Description:

Soltex Cork Board is a resin bonded cork fillerboard consisting of selected cork granules securely bound together by a synthetic resin.

Soltex Resin Bonded Cork Board is strong, light in weight, flexible, and acid resistant.

Used in water retaining structures such as water treatments and sewage plants, sea walls, and reservoirs.

Uses:

- Water Retaining Structures.
- Water Treatments.
- Sewage Plants.
- Sea Walls.
- Reservoirs.

- Compliant with ASTM D1752 - 67 (R73), Type 2.

Technical Data:

Property	Value
Density	210 kg/m ³
Load at 50% Compression	540 kPa
Recovery after 50% Compression	96% of its original thickness
Weathering Test	Satisfactory
Temperature Resistance	-40°C to +150°C
Insolubility Test	No disintegration after 1 hour in boiling hydrochloric acid

Available Sizes

Size (mm)	Thickness (mm)
610 x 915	12
610 x 915	20
610 x 915	25
