Innovative sealing of precast segments

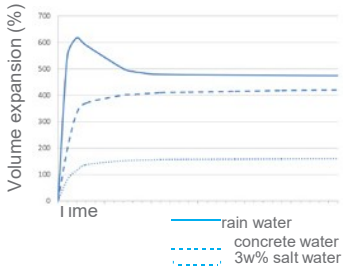

Easy installation

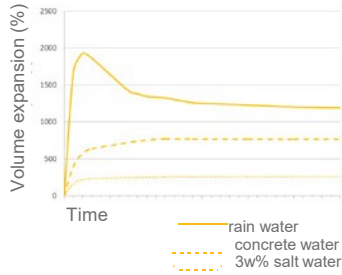

Available in different sizes

EXPANSION CAPACITY SEALING INSERT

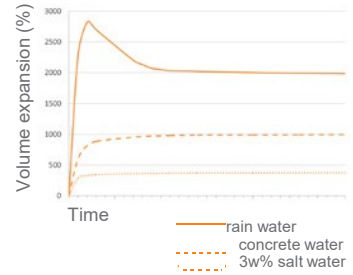

SEALING INSERT standard version 4 mm

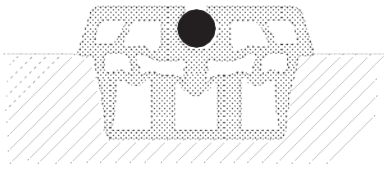

SEALING INSERT salt version 4 mm

SEALING INSERT superswell version 4 mm

APPLICATION

Solco water swellable sealing products are based on the unique Active Sealing Technology. The products expand on contact with water. This is how they create an active seal to combat moisture infiltration. These products are self-correcting and thus also sealing the unevenness and imperfections of the concrete.
