

Heavy Duty Flat Base Plastic Spacer

Description

A remarkably robust spacer manufactured from high quality plastic and supplied in 2 metre lengths. Designed with a large flat base for enhanced stability, making it ideal for use on metal decking. This spacer can be easily unclipped to create 1 metre lengths, serving as a versatile alternative for traditional concrete bar. It boasts a significant advantage, by providing over 50% additional metres per pallet. This not only ensures strength and resilience but also leads to significant cost savings in both storage and transportation.

Product Code	Cover (mm)	Pack Size (mtr)	Pallet Size (mtr)
PCHFB20	20	100	6000
PCHFB25	25	100	4800
PCHFB30	30	50	3150
PCHFB35	35	50	2400
PCHFB40	40	50	1750
